About

Slitigenz

Slitigenz is a leading technology partner, providing custom software solutions across multiple industries and platforms

With deep expertise and a strong focus on quality, efficiency, and innovation, Slitigenz delivers high - performance, cost-effective solutions to clients across the US, UK, Australia, and the Middle East.
 As a forward-thinking company, we strive to bring Vietnamese technology to the global stage, driving digital transformation through tailored, cutting - edge solutions.
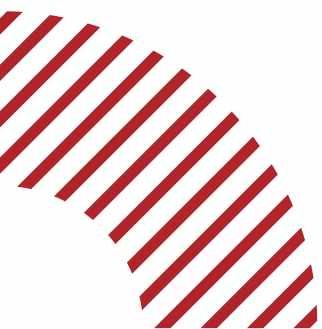

Our
Vision & Mission

▌Vision

With the vision of **becoming a trusted, long-term technology partner**, Slitigenz brings together top - tier researchers, engineers, and strong collaborations with leading AI labs in Vietnam.
We don't just deliver tech solutions - **we invest in your success**. Our commitment goes beyond short-term results; we focus on building lasting relationships and supporting your growth at every stage

▌Mission

Our mission is to **empower businesses by applying modern technology** to optimize their operations and unlock new growth opportunities.
We are committed to delivering innovative solutions that help enterprises thrive in today's digital landscape.
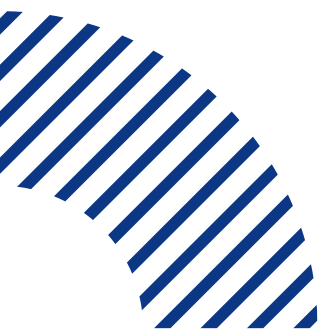

Our
Products

Sli Home - Real Estate Management System

Sli Home makes it easy for tenants to find homes and for landlords to manage rentals — all in one smart platform

Our Dual Solutions for Different Needs

We offer **2 specialized platforms** tailored to serve *both tenants & property owners*

• **List fast**	• **Smart search filters**
• **Manage easily**	• **Map view for nearby listings**
• **Track performance**	• **User-friendly browsing**

Key Features

Project Information Management
Update and manage location, type, size, pricing & availability of listings.

Map & Location Search
Explore properties with interactive maps and area-based filters.

Client & Deal Tracking
Manage tenant and landlord info, contracts, and transaction history

Smart Alerts & Reminders
Update and manage location, type, size, pricing & availability of listings.

Performance Dashboard
Monitor revenue and project progress with clear visual reports.

Our
Products

GazeCode – Smart Education Management Platform

GazeCode is **a gamified online coding platform** with built - in tools for managing students, teachers, and courses. It helps education centers engage learners and streamline operations - all in one place.

Key Features

Student & Teacher Management
Track learning progress, scores & teaching activities in one system

Course Management
Easily create and update course content for all levels.

Automated Grading
Save time and ensure fairness in assessments.

Parent Portal
Keep parents updated on student progress anytime

Tuition Payment Integration
Support various payment methods and invoice tracking.

Smart Reports & Analytics
Visualize key learning metrics for better decisions.
